SUBJECT INDEX

Alternative scanning methods
Some alternative scanning methods for the ion trap mass spectrometer 117

Chemical ionization
Comparison of electron ionization and chemical ionization sensitivities in an ion trap mass spectrometer 137
Collision-induced dissociation
Temperature-dependent, collision-induced dissociations in an ion-trap mass spectrometer 191

8-Desmethylseseline
ITMS capabilities in isomer analysis. Part 3. Characterisation of methyl and dimethyl derivatives of 8-desmethylseseline, potential anti-proliferative agents, by tandem mass spectrometry 283
Dissociative photoionization
Dissociative photoionization in the vacuum UV region with ion trapping 159

Electron ionization
Comparison of electron ionization and chemical ionization sensitivities in an ion trap mass spectrometer 137
Environmental samples
A transportable turnkey gas chromatograph–ion trap detector for field analysis of environmental samples 299

Field analysis
A transportable turnkey gas chromatograph–ion trap detector for field analysis of environmental samples 299

High mass/charge ratios
Operation of a quadrupole ion trap mass spectrometer to achieve high mass/charge ratios 79

Ion cage
Simulation study of an ion cage with superimposed multipole fields 63
Ion clouds
On the dynamics and energy of ion clouds stored in an r.f. quadrupole trap 33
Isomer analysis
ITMS capabilities in isomer analysis. Part 3. Characterisation of methyl and dimethyl derivatives of 8-desmethylseseline, potential anti-proliferative agents, by tandem mass spectrometry 283

Kinetic energy measurements
Measurement of kinetic energies of ions ejected from a quadrupole ion trap 237

MS–MS parent scans
MS–MS parent scans on a quadrupole ion trap mass spectrometer by simultaneous resonant excitation of multiple ions 197
Multiple stages of mass spectrometry
Multiple stages of mass spectrometry in a quadrupole ion trap mass spectrometer: prerequisites 213
Multipole fields
Simulation study of an ion cage with superimposed multipole fields 63

Novel scan routines
Novel scan routines for selected ion monitoring using an ion trap mass spectrometer 21

Overview
The recent evolution of the quadrupole ion trap mass spectrometer—an overview 1

Proton affinity determinations
Proton affinity determinations using the kinetic method in an ion trap mass spectrometer 249

Resonance-enhanced multiphoton ionization spectroscopy Resonance-enhanced multiphoton ionization spectroscopy in an ion trap detector 175

Selected ion monitoring
Novel scan routines for selected ion monitoring using an ion trap mass spectrometer 21

Sulfur
The ion trap mass spectrum of sulfur 273

Transportable GC–ITD
A transportable turnkey gas chromatograph–ion trap detector for field analysis of environmental samples 299
